

SECURITY RISK ANALYSIS

Project-Based Compliance & Risk Management Solutions

Safeguard your organization and meet regulatory requirements with our comprehensive SRA, designed specifically for medical and dental practices.

What's included in your SRA?

- Project Kick-Off and Planning - initial meeting to define objectives, roles, and timelines.
- Detailed Risk Assessment - thorough evaluation of your current policies, procedures, and safeguards.
- Risk Identification & Deficiency Report - clear summary of vulnerabilities and compliance gaps.
- Executive Summary & Final Report - professional documentation of prioritized mitigation steps to enhance security practices for leadership and audit readiness.
- One-on-One Expert Consultation - personalized review to discuss findings and inform future security initiatives.

Is This Right for Your Practice?

- ✓ Last risk assessment was completed over a year ago.
- ✓ Recently added new technology or services.
- ✓ Preparing for an audit or regulatory review.
- ✓ Want to proactively address security risks.
